ABOUT NKR

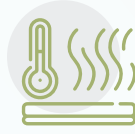

NKR Exim is a trusted manufacturer of premium-quality spun polyester sewing threads and poly-poly core spun threads. Our commitment to excellence is supported by a highly equipped quality control system, ensuring superior yarn consistency and performance. We utilize advanced precision winding machinery to deliver yarn with optimal diameter, flawless winding, and impeccable packaging standards.

POLY POLY CORESPUN SEWING THREADS

Benefits

Strengths of high tenacity polyester filament and softness of polyester fibres on the seams.

Good thermal resistance and Very high resistance of seams to abrasion.

High productivity and excellent performance on sewing machine due to specifically formulated micro molecular lubrication.

Zero Breakage of Needles While sewing

EDDEN is available in a wide range of shades and packaging

100% SPUN POLYESTER SEWING THREADS - HIGH TENACITY

Benefits

No Shrinkage of Yarn

Zero Breakage of Needles
While sewing

Micromolecular lubrication for very
smooth and high-speed sewing
operation

High resistance to ultra
violet radiation

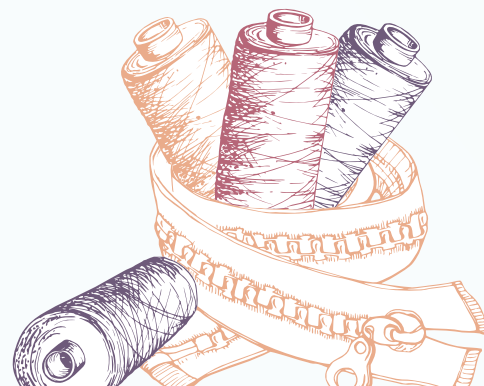

Very high colour fastness
